JOURNEY TOWARDS SUSTAINABILITY

## SHREY CARE

Our commitment to sustainability began in 2022 with the foundation of the Shrey Care initiative, we scrutinised the fabrics used for manufacturing and began replacing them with recyclable materials.

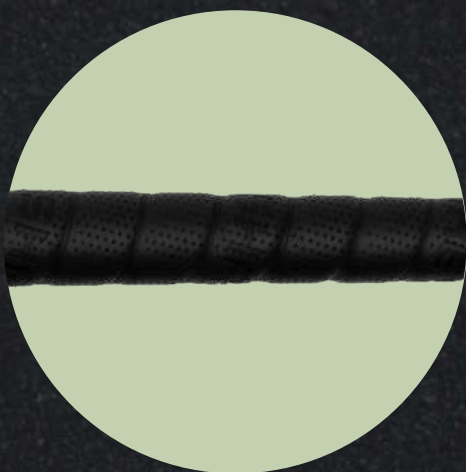

## ONE MORE STEP TOWARDS A GREENER CARBON FREE WORLD!

Over the past five years our factories have moved towards the goal of being 100% carbon neutral. We have sourced our raw materials from within 100-mile radius of our factories so our carbon footprint has been slashed. We have invested in modern, cleaner, more eco-friendly tooling that has meant greater efficiency and less energy being consumed.

Developing our hockey range has made us even more hungry to achieve a net zero from our business.

### PLASTIC FREE TRIMS AND WRAPS

Never will we use thin layers of single use shrink wrap and plastic sheet to cover our products

### ECO-FRIENDLY PACKAGING

All packaging on our hockey sticks are made from eco-friendly breathable woven fabric

### PVC FREE STICKERS

PVC free stickers are used to cover the face and bottom of the head to avoid abrasions and scratches

# OUR ASSOCIATES

————— **CHARLOTTE NUDD** —————

(UNIVERSITY OF KENT WOMEN'S HOCKEY)

I've been really impressed with my Shrey hockey kit! My meta VR 100 stick is insane to play with! Since using it, I have really enhanced the power in my play. I love the stick bag too and always get compliments on it! It has lots of storage for all my equipment and game day necessities, even better that the material has brilliant quality and survives through all weather conditions!

————— **LAURA BUTTIMER** —————

I have been using Shrey's products this season and I am so impressed with the quality and performance of them. Particular stand outs for me are the usability of the Shrey Holdall 2.0 which has the perfect amount of space for all my match day kit and separate pockets for the shoes, gloves and shinguards and my toiletries. The baselayers are fantastic quality, keeping you warm and comfortable through the cold outdoor trainings. I also trained with the Shrey Chroma 40 (indoor) for the first time last Sunday and loved it, it is definitely the best indoor stick I've ever played with.

————— **OLI LUM** —————

Shrey hockey kit is simply top drawer. All the garments are very versatile; allowing you to perform well on the pitch, as well as helping you to look and feel good off it. My personal favourites, the pro performance hoodies and jumpers, are a great option for players and coaches, due to their great comfort and usability.

————— **JAMIE WHITEHOUSE** —————

I have the duffle bag which is amazing, does the job, good size, sturdy piece of kit. Hoody is great, nice fit, warm, looks smart. Performance T's are perfect, breathable and a good fit. 1/4 zip in grey, perfect for training, a good extra thinner layer to have. The stick is ok, I find it a little stiff and it's also slightly thinner than some other sticks, looks good though

# STICKS TECHNOLOGY

## Late Bow Pro

- Enlarged head shape for robust performance. Enhanced bow shape with unparallel power and precision
- Made for strong strikes—easily slicing through astroturf and water based surfaces.

### SIZES

|-------|-------|-------|
| 36.5" | 37.5" | 38.5" |
|-------|-------|-------|

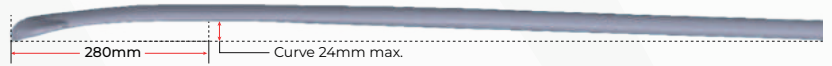

## Power Bow

- Concave face with a slight groove in the head helps to have better ball control, drag flicking and aerial skills
- The groove at the rear increases the power and the stiffness of the stick by reducing vibrations

### SIZES

|       |       |       |
|-------|-------|-------|
| 36.5" | 37.5" | 38.5" |

|-------|-------|-------|
| 36.5" | 37.5" | 38.5" |
|-------|-------|-------|

## Low Bow

- With a maximum bow point at 220 mm from the head with a maximum height of 24 mm the shape is a perfect answer to the modern style of hockey.
- Slim head for better ball control
- Uniquely shaped for all kinds of playing styles

### SIZES

## 3D Front Head

- A feature of all our sticks is the raised face, this allows maximum energy to be transferred onto the ball.
- With the 3D finish of the hitting area, ball control has never been easier.

## 3D At The Splice

- Featuring an awesome new intervention located by the grip.
- Utilising special 3D technology, we have provided the user an additional UNIQUE RAISED COMFORT ZONE for an enhanced performance level and feel.
